

Height Safety

060WH2 Work safely at heights refresher (1 Day)

Nominal Course Duration

1 Day. Public courses start at 8.00am and are usually completed by 4.00pm, dependent upon the learning abilities of the participants.

Maximum Students

12

Description

Persons who complete working at heights training should complete refresher training at intervals no greater than 12 months to maintain industry competency levels.

This is the course everyone needs to have when they are considered to be working at height. Working at heights simply means when a worker can fall from one level to another and sustain an injury as defined in the WHS Act. This course is also the prerequisite for many higher levels of heights training.

Training Subjects & Practical Exercises

- Relevant sections of the 2011 WHS legislation
- Safe Work Australia Work Safely at Heights Code of Practice
- Australian Standards references
- Height safety hazard identification, risk assessment and risk control
- Fall safety
- Types of height work (slopes, pitched roofs, brittle/fragile roofs, ladders, EWP, etc.)
- Forces & fall categories
- Fall restraint & fall arrest
- Emergency plan & rescue systems (includes practical simulated rescue of a suspended person)
- Fall protection equipment
