Description

CTC delivers a Nationally Recognised height safety equipment course (Perform Inspection) on behalf of Health and Safety (RTO 91141). This training is aimed at all personnel responsible for maintaining height safety equipment and performing the 6 monthly competent person inspections in accordance with AS/NZS 1891.4.

The 1 day perform inspection course covers the following:

Training Subjects & Practical Exercises

- Legislation, codes of practice & standards
- Hazard identification, risk assessment and risk control
- Fall safety
- Types of height work (slopes, pitched roofs, brittle/fragile roofs, ladders, EWP, etc.)
- Forces & fall categories
- Fall restraint & fall arrest
- Emergency plan & rescue systems (includes practical simulated rescue of a suspended person)
- Fall protection equipment
- Anchorage
- Ropes & lines

Training & Support Material

- Perform Inspection – participant guide
- Perform Inspection Document Templates
- Lunch is provided

Course Pre-requisites

- Participants must have completed either Work safely at height safety or Confined space training prior to attending this course. This ensures that attendees have a basic understanding of the different types of height safety equipment requiring inspection.

Pre Entry Requirements

- Participants require sufficient literacy and numeracy levels to read and interpret policies and procedures, safety data sheets and sample permits.
- Participants will need the physical ability to perform some strenuous activities in the practical exercises.

Assessment

Assessment includes written questionnaires, practical demonstrations, oral questioning and participation in group activities or teamwork.

Vocational Outcome

Upon completion of our Perform inspection program participants will receive a Statement of Attainment and plastic card issued through Combined Training & Consultancy RTO #7053.

- **MEM15004B – Perform Inspection (Statement of Attainment certificate provided by RTO 91173)**
